

# LOCAL LOCKDOWN AND ENHANCED MEASURES

Update: 31.07.20

Further to the Government's announcement at 9.30pm last night about further restrictions across Greater Manchester, Lancashire and West Yorkshire (see map below) our emergency response team met at 7.30am this morning to review these restrictions and address how they will impact our residents and colleagues.

The guidelines are brief and we are still working through them, however for today (31 July) and Monday (3 August) we have decided to:

	<p>Postpone and reschedule all non-emergency or non-essential indoor repairs and maintenance in affected areas – this will be reviewed on Tuesday 4 August</p>
	<p>Close all indoor communal areas in our schemes and buildings in affected areas</p>
	<p>Limit visitors unless essential (care, support bubble, prescription, food deliveries)</p>

We will be continuing with all gas safety and compliance checks in affected areas for now, subject to the correct PPE and COVID-19 Secure measures in place.

Please be mindful that we are again operating in unchartered waters and working as best we can with limited guidance. **Keeping our residents and colleagues safe is our number priority;** please be respectful when dealing with our colleagues or contractors.
