

LOCAL LOCKDOWN AND ENHANCED MEASURES

Update: 04.08.20

The Government's announcement late last week introducing enhanced COVID-19 safety measures across Greater Manchester, Lancashire and West Yorkshire, resulted in us temporarily suspending services. We have now reviewed all of the details.

Please read:

	<p>All non-emergency or non-essential indoor repairs and maintenance in affected areas – will restart on Wednesday 5 August</p>
	<p>All indoor communal areas in our schemes and buildings in affected areas remain closed; a further review will take place on Friday 7 August</p>
	<p>Visitors remain limited at all our schemes unless essential (care, support bubble, prescription, food deliveries)</p>

We will be continuing with all gas safety and compliance checks in affected areas for now, subject to the correct PPE and COVID-19 Secure measures in place.

Please be mindful that we are again operating in unchartered waters and working as best we can with limited guidance. **Keeping our residents and colleagues safe is our number priority;** please be respectful when dealing with our colleagues or contractors.
